

Astro-Locality-Map Report

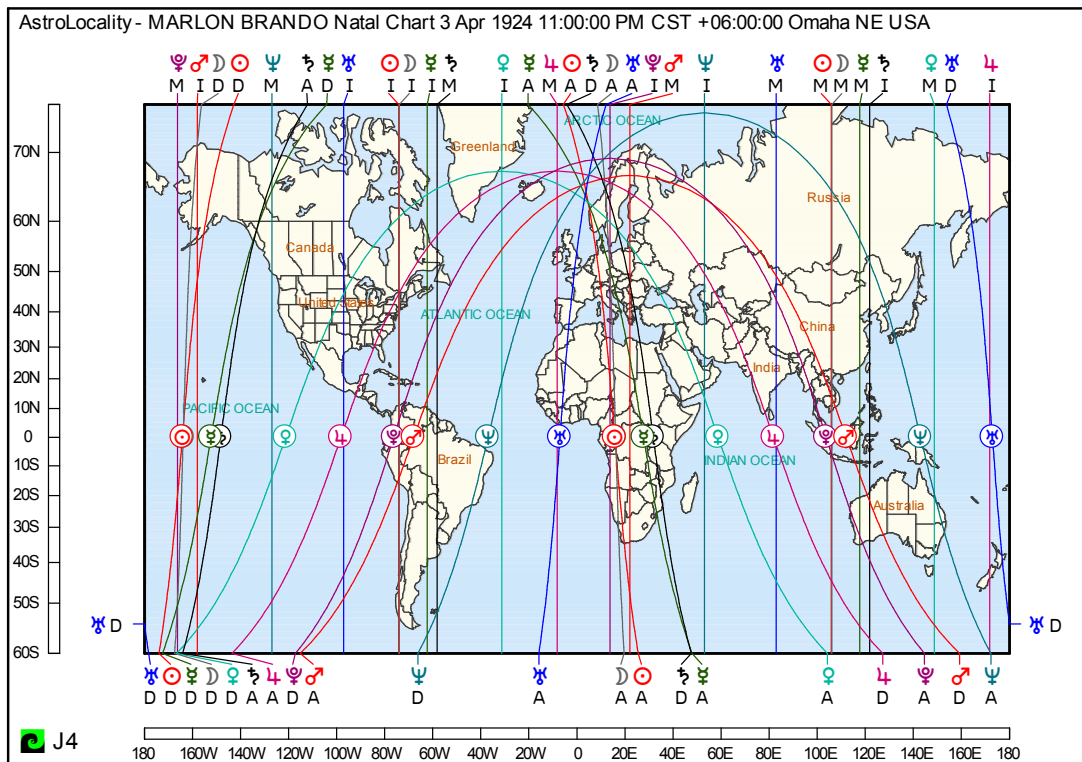

Introduction

Your Astro-Locality-Map (ALM) is based on the well known technique of astro-mapping called Astro*Carto*Graphy™ (A*C*G) popularised by Jim Lewis.

The Astro-Locality-Map superimposes planetary data on to a map of the world and shows where each of the planets in a birth chart actually crosses the meridian or horizon. While this map is technically complex to construct it is relatively simple to use.

The geographical locations of the planetary lines represent places where the individual can expect to experience the effects of the planet under observation, either by going to a location on the line, or having important contacts, such as family, romantic or business connections there.

To interpret your Astro-Locality-Map locate a planet line on the map, e.g. ☉ M (Sun at the Midheaven) and look up the interpretation in the list below.

The Planetary Lines

The " M " Line

The vertical planetary line marked with the letter "M" indicates where a planet is culminating, i.e. directly overhead. Culminating planets correspond with the Midheaven or Medium Coeli, usually the 10th House cusp. The Midheaven is the highest point in a chart. It represents personal aspirations, reputation and career. Planets on this line describe how these areas are experienced in the locations the line passes through.

The " I " Line

The vertical planetary line marked with the letter "I" indicates where a planet is anti-culminating, i.e. directly below - the point where the lower Meridian intercepts the ecliptic. The Imum Coeli corresponds with the 4th House cusp and represents family matters, domestic circumstances, real estate and later life. Planets on this line describe how these areas are experienced in the locations the line passes through.

The " A " Line

The curved planetary line marked with the letter "A" indicates where a planet is on the Ascendant - i.e. rising in the East. The Ascendant corresponds with the cusp of the 1st House and represents personal expression, the face you show the world and how you project your personality. A planet on this line describes how you will present yourself to others at the locations the line passes through.

The " D " Line

The curved planetary line marked with the letter "D" indicates where a planet is on the Descendant - i.e. setting in the West. The Descendant corresponds with the cusp of the 7th House and represents the type of energies or people you attract, such as partners or enemies. A planet on this line describes the effect other people have on you at the locations the line passes through.

Your desire to attain positions of power and authority is strong here, and you can make it to the top; however it may be quite lonely there. You can accomplish a lot here if you plan well; however the overriding experience will be ongoing struggle and hardship.

‡ I

This is one of the most difficult places to reside in. Your home and family life is far from perfect, due to heavy domestic responsibilities and relentless pressures from family members. There may be difficulties in your relationship with one or both of your parents, with the possibility of physical or emotional estrangement from your father in particular. You find it difficult to fit in and retirement may be hard going here.

‡ A

You display a serious and austere personal manner here, and can come across to others as cool and reserved. You tend not to suffer fools and generally don't speak or act without good reason or intention. Life isn't easy here and you will face many obstacles in your path. While you have the power to achieve positions of prominence and responsibility through sheer hard work you will probably ask yourself many times "is this struggle worth it"? Your health and feeling of self-worth have a hard time.

‡ D

In this location you view your relationships with others seriously and realistically, particularly personal and professional partnerships. You have a strong sense of responsibility towards others and desire fairness and justice in your dealings with people. However, you will have your work cut out achieving fair treatment in return. Marriage and significant partnerships tend to be stable and enduring, but unromantic; and marital discord is more likely here than elsewhere. Opponents or enemies can be persistent and relentless, and long drawn out legal battles may be experienced.

Uranus Lines (Change, unpredictability, sudden events)

♃ M

Your status in life is anything but certain here; you can expect sudden ascents to prominence alternating with sudden tumbles to obscurity. Your career path is, at best, up and down, with suddenly changing circumstances that you must adjust to. At work, you may not appreciate authority, yet your own sense of responsibility can leave a lot to be desired. You can succeed professionally if you are flexible and prepared to try new things.

♃ I

Domestic bliss is unlikely here. You feel like a stranger and cut off from the land and its inhabitants. Even if you try to conform you still are treated like a foreigner. This can be an exciting place to visit; however it is difficult to settle down here.

♃ A

At this location you are the original "original personality" who has the ability to make an immediate impact upon others. You are strongly independent, individualistic and delight in being different. ♃ D

At this location you tend to be drawn to unusual people and to form unconventional unions. You appreciate individuality and originality in others. Your partners might be quite a bit older or younger than you, or come from a different country or ethnic background. Whatever the case, they may be quite different to what you are used to. They may also be eccentric and a law unto themselves, which can be both stimulating and exasperating.

Neptune Lines (Dreaminess, imagination, illusion)

♆ M

This is not the easiest place on the planet to achieve professional security. You may not quite understand the nature or demands of your work. Other people can weaken or undermine your position or self-confidence. You, yourself, are not even sure of your career options here. However, if you are motivated by the wish to serve others spiritually and are unconcerned about material wealth you can succeed.

♆ I

Your home-life is never totally straightforward or secure here. You find it hard to put down roots and maintain domestic stability. If possible, you should try to live near water, such as a river, pond, lake or ocean, as this will be soothing and comforting to

you. There may be some uncertainty concerning your family history or ancestry here. Your later life may be spent within a spiritual environment or in seclusion.

You change like the wind and the seasons. You are swept along by the prevailing mood of the moment. You radiate a dream-like quality and mystery that draws others to you. Extreme care is necessary with intoxicants, as these can over-stimulate your nervous system and throw you into states of confusion.

♃ D

You tend to have an idealistic attitude in relationships here and may expect too much of others or partners. Other people may let you down, deceive or disappoint you. Alcoholism or drug abuse may be a problem in your personal relationships. An ideal partner is someone who understands your need for soul union.

Pluto Lines (Power struggles, transformation, regeneration)

♁ M

For some reason you seem to draw resentment from others here. Other people may work against you and attempt to undermine your reputation. You are likely to come into conflict with authority or experience power struggles at work. Positively, you can make great progress in your career through making it your primary focus and giving it all you've got. You may become aware of your destiny or mission in life here and undergo inner change and transformation in the process.

♁ I

Anticipate power struggles in your home here, as family members or flatmates vie for positions of power and dominance. Your past is likely to be dredged up and family secrets may come out into the open. This tends not to be a safe place for elderly people. On a more mundane level, your home will probably need repairs to its foundations, plumbing and drainage.

♁ A

At this location you display a powerful presence and an intense and magnetic personality, which impacts strongly upon all who come into contact with you. You crave power and have an uncanny instinct about the strengths and weaknesses in other people, which you can exploit for personal advantage. Others may find it difficult to get to know you as you tend to conceal your character, yet they sense that you are not someone to toy with. Your survival instincts are strong here, which is just as well because physical danger is possible.

♀ D

Other people are either attracted to you or repelled by you here. This is not an easy place to make friends, as people are wary of you and may harbour resentment towards you. You could even come to physical harm at the hands of other people. Take care in your dealings with others, as your potential for making powerful enemies is stronger than you imagine. You have a tendency to push your relationships to the limit and to place great emotional pressure and demands on your partners. Power struggles are likely in your personal unions.
